## **RESPONSE AFTER FINAL REJECTION**

Dear Sir:

In response to the Office Action mailed December 2, 2003, Applicants respond as follows.

## Remarks

## Rejections Under 35 U.S.C. 103(a)

Claims 1-20 have been rejected under 35 U.S.C. §103(a) as being unpatentable over Colvin et al., EP 0 942 042 (Colvin EP '042), or in the alternative over Colvin EP '042 in view of Zanzig et al., U.S. 5,614,580 (Zanzig '580) or Agostini et al., U.S. 5,674,932 (Agostini '932). These rejections are traversed.

Applicants reiterate the arguments made previously with regard to this rejection, and maintain that no prima facie case of obviousness exists.

Applicants again urge that even if prima facie obviousness did exist, the present claims are made non-obvious by the unexpected results illustrated in the present specification as filed. The Examiner suggests that the argument relating to the unexpected results is not clear. As suggested, Applicants provide further elucidation of this evidence of nonobviousness.
